WHO WE ARE?

Global Kitchen Equipments, is one of the reputed organizations, involved in manufacturing and supplying Kitchen Equipments and Kitchen Machineries. Backed by voluminous experience, we are capable of developing our range of products as per the industry standards and customers' needs. Our range of products caters to the needs of various sectors such as Canteens, Hotels, Restaurants, Resorts, Guest Houses and many more. These products are precisely manufactured and known for its vital features like fine finish, easy operation, low maintenance, corrosion resistance and durability.

While fabricating the products, we also ensure to use high-grade stainless steel which is sourced from reliable vendors. The entire process of fabricating quality products is carried forward at our manufacturing unit which is equipped with all the necessary machines like Polish, Hydraulic, Pressing and Lathe Machine. Meeting the precise demands of the Customers has been our top most business priority. These machines and advanced, sophisticated facilities further help us to provide customization facilities as per the requirements stated by our clients.

Our team of Engineers have extensive experience in proper installation & maintenance of the products which enhances the life and the safety of the equipment. We make sure that our heavy-duty kitchen equipment is delivered at industry leading prices within the stipulated possible time.
